There's so much to do outdoors on Lord Howe that you'll be relieved the island is 40 times smaller than it was seven million years ago. A few days here is simply not enough – the average stay is nine days. From misty mountain summits to the sparkling depths of the lagoon; magnificent bird life to the diversity of marine life; Lord Howe Island is one destination that does not need resort-style distractions to attract visitors. The island offers 18 friendly accommodation options, from affordable to luxury, and enough dining options to enjoy a different establishment every night of the week. No harbour-size swimming pools, theme parks or noisy, motorised thrills exist to distract you from the island's natural wonders. It is little surprise that Lord Howe is known as the last paradise.
