WHEN TO GO

With weather described as "perpetual spring", any time is a good time to visit Lord Howe, although winter is definitely low season with only a handful of accommodation providers open. Water babies should visit after October when the water warms up, while walkers will find April and May most

comfortable. Birdwatchers will spy the most variety between October and March. Jazz weeks and other special events are offered during winter. 🌐

**For information call
1800 240 937 or visit
